Time for Filing Opposition to Marks Published in the September 10 and 17, 1974, Issues of the Official Gazette

It has come to the attention of the Patent Office that there was a delay at the Government Printing Office in mailing the Trademark Section of the OFFICIAL GAZETTE for September 10, 1974 and for September 17, 1974 to a large number of subscribers. The Patent Office was further informed by the Superintendent of Documents, Government Printing Office, that the September 10, 1974 and September 17, 1974 issues were eventually mailed to all subscribers.

In view of the delay in mailing, the marks published for opposition in the issues of the Trademark Section of the OFFICIAL GAZETTE for September 10, 1974 and September 17, 1974 are hereby republished by reference to those issues. Accordingly, the date of publication of those marks under Sec. 12(a) of the Trademark Act of 1946 for the purpose of opposition is deemed to be November 5, 1974, the date of this issue. The opposition period for the marks in those issues will end on December 5, 1974. Oppositions filed before November 5, 1974 will also be acceptable in view of the first publication of the marks on September 10 and on September 17.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).
